

OUR VISION & MISSION:2019-20

Our vision is to provide high-quality education and expose young learners to the ever-expanding realm of knowledge across various spheres of life. We aim to develop both individual and collective excellence, instill an appreciation for preserving cultural and traditional values, and nurture a growing awareness of the importance of combating environmental pollution in all its forms while protecting and preserving our environment.

OUR MISSION

Our mission is to spread knowledge and awareness among children in rural areas, particularly girls in the Birupa-Genguti Delta region. We are committed to fostering discipline, a dedication to truth, and the cultivation of strong moral character among our students. Through effective learning, we endeavor to develop the personalities of our young students and support scholarly activities within the younger generation. We aim to equip our students with the skills necessary for their career development.

Furthermore, we are dedicated to establishing and maintaining high-quality infrastructure for humanistic and scientific studies. We promote a culture of unity and camaraderie within a friendly environment. We inspire both students and faculty to uphold ethical, spiritual, and social values. Our goal is to instill in our students a foundational quality that can adapt to the changing global landscape.

Our overarching mission is to cultivate human potential, which can then be harnessed to contribute to the knowledge and wisdom required for constructive societal progress. We are dedicated to promoting humanitarian virtues and preserving our rich heritage, culture, and spiritual values. Specifically, we aim to facilitate higher education among the rural poor in the Birupa-Genguti Delta of Jajpur district.

Motivated by this noble ideal, both the staff and students of our institution engage in a variety of extension activities outlined by NSS and YRC programs. These activities not only contribute to social peace and prosperity but also enhance the institutions reputation as a beacon of hope and faith for a purposeful life. In addition, our institution hosts debates and discussions on critical social issues during seminars and symposiums, bridging social gaps and reaching out to distressed, economically disadvantaged pupils with positive, elegant, and sustainable solutions.
